

SAGE CONSTRUCTION AND REAL ESTATE SOLUTIONS

Estimating Report Manager

Estimating Report Manager simplifies the task of reporting on estimates that you produce with your Estimating software.

For extensive analysis and reporting, you can easily export estimate data into a reportable file to use with Crystal Reports® or Microsoft Access. Select any estimate for reporting, combine estimate items, round item quantities, allocate add-ons, and more. The software provides sample Crystal Report designs, including proposal templates and cross-tab reports, for professional-looking presentations of estimate information. It's a simple way to organize and manage all estimating reports in one central location.

Features and Efficiencies

- Organize and manage estimating reports in one central location.
- View and report on estimate data through custom report designs created in Crystal Reports or Microsoft Access.
- Extend your analysis and presentation capabilities using cross-tab reporting functionality in Crystal Reports.
- Demonstrate professionalism with polished proposal templates.
- Includes a copy of compatible Crystal Reports and ODBC software.

BENEFITS

Create more professional looking reports.

Generate estimating reports more quickly and easily using Estimating's reportable file.

Access data fast through custom report designs created in Crystal Reports or Microsoft Access.

Decrease the learning curve often associated with complex reporting requirements.

The screenshot shows the Estimating Report Manager software interface. On the left, there is a 'Sample Reports' list with options like 'Sample Cross Tab GP', 'Sample Cross Tab UF', 'Sample CSI Budget Summary', 'Sample Proposal I', 'Sample Proposal II', and 'Sample Uniform II Main'. Below this is a 'Report details' section with 'Report type' set to 'Crystal Reports' and 'Report path' set to 'Sample Reports\Sample'. The main window displays a preview of a report titled 'TIMBERLINE Construction Corporation Building Element Summary'. The report includes project information and a detailed table of building elements.
